MR. AUGUST DE VRIES IS A LONG TIME ELGIN RESIDENT

Mr. De Vries has written his first book intitled Back to the Land.

Back To The Land is a multi-generational saga that unfolds over more than a century, chronicling the lives and struggles of the Fernsby family in the picturesque Chateauguay Valley. Set against the backdrop of the valley's evolving landscape, this compelling fiction delves deep into the rural existence of its inhabitants, initially rooted in self-sustaining agriculture.

Starting with the valley's first settlers, the story traces the development of farming as a way of life. It vividly describes the establishment of early farms, the gradual domestication of animals, and the pivotal shift towards profit-driven agriculture. As generations pass, the Fernsby family becomes emblematic of the changing agricultural landscape, where small, family-owned farms give way to mass production and the challenges of sustainability.

Back To The Land invites readers to reflect on the evolving relationship between humans, the land, and the sustenance it provides in a captivating narrative that weaves together the voices of various Fernsby descendants, each describing their unique living conditions, hopes, and struggles.

This is a great book and I truly hope there is a sequel...

This book (e-book or paper format) is available on Amazon.
